Certificate Program

Demand & Supply Management

This module gives deep insights into operational parameters, either inhouse or in sourcing networks.

- Business & IT alignment: Optimizing the contribution of IT to the business and establishing proper ways of making IT-related decisions.
- The importance of strong demand management: Bridging the gap.
- IT delivery: Managing and controlling the IT operations, portfolio management.
- Vendor management: Procurement strategies.
- IT sourcing: major trends in onshore, nearshore and offshore sourcing and their impact on the retained organization.
- Outsourcing strategies: Taking HR and legal aspects into account.

The course is offered in the framework of the Executive MBA in Business & IT.

Target group
Executives in the age of digital transformation
