Why a Certificate Program in Digital Transformation & Entrepreneurship?

During this course, the basic principles of digital transformation that lead to profitable and sustainable digital business models and processes will be acquired.

- Digital Transformation: understanding IT and societal mega trends, like Big Data or The Internet of Things (IoT), and their implications for organizations and markets.
- Digital business models: combining products and services to create market-oriented packages and aligning business goals with technical realization.
- Innovation through IT processes, research & development.
- The effect of digital innovations on business behavior.
- Digital Transformation and the radical change of business models and processes.
- Concepts and examples of creating and maintaining a culture of innovation and execution.
Program Partners

A Selection of our Lecturers

Prof. Dr. Helmut Krcmar
holds the Chair for Information Systems, Faculty of Informatics, and is the Academic Director of the Executive MBA in Business & IT at TUM. His research interests include Information and Knowledge Management, IT-enabled Value Webs, Service Management, Computer-Supported Cooperative Work, and Information Systems in Health Care and eGovernment.

Prof. Dr. Bernd Mühlfriedel
is Professor of Entrepreneurship & Management of SMEs at the University of Applied Sciences, Landshut. Besides, he holds lectures on finance & investment topics as well as entrepreneurship and start-up management at Technical University of Munich. His main areas of his expertise are Entrepreneurship, Financial Management and Value Investing.

Prof. Dr. Dr. Holger Patzelt
holds the Chair of Entrepreneurship at the TUM School of Management. His research focuses on entrepreneurial cognition and economic, emotional and psychological consequences of failure.

Dr. Armin Pfoh
joined the TÜV SÜD AG in Munich, Germany in October 2009 as VP Corporate Innovation Management, setting up a number of corporate innovation initiatives in the area of Electro-Mobility, Embedded Systems, Mega Cities, Water Services and Digital Services. Since January 2016 he has been focusing on the set-up of a new Digital Service Organization as Chief Technologist – Digital Service.

Daniel Krauss
holds a degree in Business Informatics and is one of the founders of FlixBus, a young mobility provider offering daily long distance bus service all over Europe. FlixBus received the Bavarian New Business Award as the Best Start-Up 2014.
About TUM

The TUM School of Management takes a unique approach to research and teaching at the highest level of academic excellence and at the interface of management, engineering, natural and life sciences. Since its establishment, TUM School of Management has successfully carried out interdisciplinary and interfaculty research and successfully cooperated with external research facilities. The faculty employs a total of 35 professors and an additional 250 staff members. The TUM School of Management cooperates with about 160 internationally renowned universities and business schools.

As one of the youngest business schools in Germany, TUM School of Management has been very successful in quickly reaching top positions in prestigious rankings in terms of excellence in both research and teaching. In 2014, Handelsblatt, Germany’s leading financial newspaper, reconfirmed the TUM School of Management as the most research-intensive German faculty among business universities. Thanks to excellence in teaching, the faculty has held one of the top positions in the respected CHE university rankings for a number of years.

TUM School of Management is one of the few triple-accredited business school in Germany - and one of about 1% worldwide. The Executive MBA programs were accredited with AMBA in late 2015. In 2017, TUM School of Management also received the EQUIS and AACSB accreditations.
